

Samsung A300/A400 Unlock Change IMEI Clip usage:

UNLOCK:

Power phone off

Attach clip

o LED (on phone :) will blink fast

o LED Stays orange

Now, phone is unlocked, and UserCode is set to 00000000

IF you only want to unlock the phone, You can take off the clip now.

CHANGE IMEI:

Power phone off

Attach clip

o LED (on phone :) will blink fast

o LED Stays orange

Now, phone is unlocked, and UserCode is set to 00000000

Press new imei now:

Press each key slowly.

IF key gets accepted, the LED will light GREEN for a short moment

IF key is not accepted, the LED will light RED for a little longer :)

After 14 GREEN blinks (14 correct keys)

The led will blink in all colors available...

Now, Imei should be changed, and you can take off the clip.

Power off/on the phone, and check new IMEI.

not ok? try again!
