Faq:

[1\) GD55: Which one is the unlock code?](#)

First one

[2\) Where can I get operator codes for nokia unlock?](#)

www.gsmworld.com - choose roaming and go to specification of network.

3) ST55: Which one is the unlock code?

First one

4) How many attempts do I have to enter the code?

Nokia - 5 attempts then it will be locked and unlock only by cable

Panasonic, Siemens - no limit

5) Why DCT3 code is correct, phone accept it and it is still locked?

Nokia DCT3 may be locked on the second level. This clip will show You only first unlock code. To most phones that is enough.

6) What is: GD55: Sim Mep Failed?

Do not worry try few times, check with simcard, sometimes You need few tries to unlock phone.
